Wednesday-Jan 10, 2007

**7:00-8:00 Registration and
breakfast (breakfast included
with registration fee) at the
Hyatt Regency Milwaukee**

	Speaker	student	Title
8:00-8:20--Keynote speaker	Sanheinrich, Mark		Bioaccumulation of methylmercury in lacustrine food webs of the Voyageurs National Park:
8:20-8:40	"		Controlling factors and potential consequences for fish populations
8:40-9:00	Mitro, Matthew		Predicting summer water temperatures for all Wisconsin streams using artificial neural network models
9:00-9:20	Janvrin, Jeff		A Comparison Of The Pre- And Post-Impoundment Fish Community Of The Upper Mississippi River (Pools 4-13) With An Emphasis On Centrarchids
9:20-9:30 Coffee & Tea Break	break		
9:30-9:50	Frey, Nicole	yes	The Impact of a Stocked Non-native Species, the Brown Trout, <i>Salmo trutta</i> , on the Evolution of the Native Brook Stickleback, <i>Culaea inconstans</i>
9:50-10:10	Hughes, Mike	yes	The genetic suitability and long-term viability of Ash Creek's brook trout population as a regional brood source for Wisconsin's wild trout stocking program
10:10-10:30	Freund, Jason		Restoration of the Genesee Creek following Dam Removal
10:30-10:50	Lonzarich, David		Characteristics of habitat and salmonid populations in complex and simple reaches of a northern Wisconsin stream
10:50-11:10 Coffee & Tea Break	break		
11:10-11:30	Janssen, John		Lake trout spawning and fry production at Lake Michigan's deep reefs
11:30-11:50	Kjelvik, Melissa	yes	Evaluation of rainbow smelt predation as a bottleneck to cisco recruitment in Lake Superior
11:50-12:10	Kornis, Matthew	yes	Opportunistic feeding behavior of the Alewife: Why a pelagic obligate zooplanktivore selects for rocky habitat along Lake Michigan's coast
12:10-12:30	Lederer, Amanda	yes	A Comparative Analysis on the Long-term Effects of Round Gobies (<i>Neogobius melanostomus</i>) on Dreissena populations in Green Bay, Lake Michigan,

Wednesday-Jan 10, 2007	Speaker	student	Title
12:30-1:30 lunch included with registration fee at the Hyatt Regency Milwaukee	lunch		
1:30-1:50--Keynote speaker	Marcquenski, Sue		Viral Hemorrhagic Septicemia (VHS) Update
1:50-2:10	"		"
2:10-2:30	Bruch, Ronald		Wisconsin's First Fisheries Lottery: Lake Sturgeon Spearing on the Upriver Lakes, Winnebago System
2:30-2:50	Koziarski, Ralph	yes	Prehistoric Fishing in Wisconsin: A Call for Interdisciplinary Research
2:50-3:10 Coffee & Tea Break	break		
3:10-3:30	Schmalz, Patrick		Angler Attitudes Toward Tournament Fishing in Wisconsin
3:30-3:50	Williamson, Craig	yes	Tournament-associated mortality and the effects of culling in Wisconsin black bass (<i>Micropterus spp.</i>) tournaments
3:50-4:10	Benike, Heath		Changes in the Muskellunge Fishery by Reducing Stocking, Increasing Minimum Length Limits and Possible Changes in Angler Attitude Over Time. Deer and Bone Lakes, Polk County, WI.
4:10-4:30	Kamke, Kendall		The Economic Impact of Angling on the Lake Winnebago System
4:30-6:00 annual meeting			
6:00-7:30 Social @ Old German Beer Hall (first keg provided with registration)			
7:30-10:00 Banquet included with registration fee @ Historic Turner Hall			

Thursday-Jan 11, 2007

**7:00-8:00 breakfast included
with registration fee at the Hyatt
Regency Milwaukee**

8:00-8:20	Schaefer, Wayne	yes	Blue Walleye Update Assessment of seasonal movement patterns of walleye (<i>Sander vitreus</i>) in the Lower Milwaukee River and estuary, Wisconsin
8:20-8:40	Hirethota, Pradeep		Pallid sturgeon and shovelnose sturgeon in the lower Platte River, Nebraska
8:40-9:00	Peters, Ed		Lake Sturgeon Rehabilitation in Lake Michigan: The Milwaukee River Experience
9:00-9:20	Eggold, Bradley		
9:20-9:30 Coffee & Tea Break	break		
9:30-9:50	Pratt, Frank		Spotted carp- bash with impunity, but careful with that axe! Assessing quality of spawning habitat for walleye (<i>Sander vitreus</i>) based on habitat characteristics in two northern Wisconsin lakes
9:50-10:10	Williamson, Lauren	yes	Impacts of Supplemental Stocking in Wisconsin's Muskellunge Propagation Program
10:10-10:30	Murphy, Edward	yes	An Integrated Approach to Improving Production in Yellow Perch Aquaculture
10:30-10:50	Shepherd, Brian		
10:50-11:10 Coffee & Tea Break	break		
11:10-11:30	Meronek, Tom		The channel catfish population of the middle Wisconsin River.
11:30-11:50	VanDeHey, Justin	yes	Genetic Structure Among Lake Michigan's Lake Whitefish Spawning Aggregates An Examination of the Relationship Between Electrofishing Catch Rate and Trout Density in Wisconsin Streams
11:50-12:10	Bergman, Paul	yes	Wolf River Trout Management
12:10-12:30	Seibel, Dave		
12:30-1:30 lunch included with registration fee at the Hyatt Regency Milwaukee	lunch
