

**Wisconsin Chapter of the
American Fisheries Society
Annual Meeting Program
February 5 - February 7, 2013**

Tuesday, February 5, 2013	Event	01/23/2013
----------------------------------	--------------	-------------------

1:00 - 4:00 pm	DNR Lake Michigan Team Meeting
2:00 - 4:00 pm	WI - AFS Executive committee meeting
5:00 - 7:00 pm	Registration in hotel
6:00 - 10:00 pm	Social in hotel (drinks and snacks provided - this is not a meal)
7:00 - 8:00 pm	Student sub chapter meetings - All AFS members can attend and help the student chapters develop and plan events for 2013

Fisheries Session Wednesday Feb 6, 2013			
--	--	--	--

Time	Speaker	Paper #	Title
7:00 - 8:00	Registration		
8:00 - 8:20	Welcome / Introductions / Updates		
8:20 - 8:40	Max Wolter	PR - 1	Angler preferences and species identification competence on three lakes with liberalized black bass regulations
8:40 - 9:00	Kaitlin Schnell	PR - 2	Predicted effects of angler harvest on Largemouth bass abundance in northern Wisconsin lakes
9:00 - 9:20	Jamison Wendel	PR - 3	Early observations of liberalized black bass regulations in NW Wisconsin
9:20 - 9:40	Craig Kelling	PR - 4	Largemouth bass in northern Wisconsin: Potential dietary interactions with Walleyes
9:40 - 10:10	Break		Provided
10:10 - 10:30	Lawrence Eslinger	PR - 5	Dietary habits and overlap between walleye and Smallmouth bass in the Turtle-Flambeau Flowage, Wisconsin
10:30 - 10:50	Jacob Richter	PR - 6	Measuring walleye spawning habitat using side sonar versus transect-based methods
10:50 - 11:10	Christine Koeller	PR - 7	Lake habitat mapping with side-scan sonar in nine Wisconsin lakes
11:10 - 11:30	Andrew Struck	PR - 8	Ozaukee fish passage program: Dam removal/remediation success stories for fish passage in the Milwaukee River watershed
11:30 - 1:00	LUNCH (on your own)		
12:30 - 1:00	Poster Session		Poster authors will be present to answer questions about their work
1:00 - 1:20	Steve Gilbert	PR - 9	Trends in Wisconsin's muskellunge fishery based on 47 years of angler entries from a single countywide contest
1:20 - 1:40	Marty Jennings	PR - 10	Muskellunge size structure changes and angler perceptions in the Spider Lake Chain
1:40 - 2:00	Tom Cichosz	PR - 11	Evaluation of potential size selectivity of Tribal muskellunge spearing in northern Wisconsin Lakes
2:00 - 2:20	Zebadiah Woiak	PR - 12	Genetic diversity of hatchery-reared muskellunge: Impacts of propagation practices
2:20 - 3:00	BREAK / Poster Session		Poster authors will be present to answer questions about their work
3:00 - 3:20	Christine Koeller	PR - 13	A comparison of historical changes in lake morphology of six inland lakes in Wisconsin
3:20 - 3:40	Anthony Havranek	PR - 14	Clam Lake Carp
3:40 - 4:00	Maureen Ferry	PR - 15	Zebra Mussel habitat preference, growth and mortality within and among lakes in northeast Wisconsin and upper Michigan
4:05 - 5:30	Business meeting		
6:00 - 8:30	Banquet		Included with registration
8:30 - End	Bar Room Biology		at The Bar, just down the road from the hotel

**Wisconsin Chapter of the
American Fisheries Society
Annual Meeting Program
February 5 - February 7, 2013**

**Fisheries Session
Thursday Feb 7, 2013**

Time	Speaker	Paper #	Title
8:20 - 8:40	John Lyons	PR - 16	Fish Vis: A web-based tool for predicting responses of stream fishes and their habitats to climate change in the Great Lakes region
8:40 - 9:00	Gretchen Hansen	PR - 17	Learning to manage and managing to learn: sustaining inland fisheries in a changing climate
9:00 - 9:20	Andy Selle	PR - 18	Beavers, Brook trout, humans and geology - Investigating controls on water temperature in Otter Creek, Forest County Wisconsin
9:20 - 9:40	Matthew Belnap	PR - 19	Stock characteristics of Lake Whitefish in Lake Michigan
9:40 - 10:20	BREAK / Poster Session		Poster authors will be present to answer questions about their work
10:20 - 10:40	Jeff Kampa	PR - 20	Status of Lake Sturgeon restoration in the Namekagon River, Wisconsin
10:40 - 11:00	Dan Isermann	PR - 21	Evaluating harvest regulations for Lake Sturgeon in the White Rapids section of the Menominee River
11:00 - 11:20	Matt Mitro	PR - 22	Gill lice infection of Brook trout in Wisconsin streams
11:20 - 11:40	Wendy Olson	PR - 23	Comparative susceptibility among three stocks of yellow perch, to viral hemorrhagic septicaemia virus (VHSV) strain Ivb from the Great Lakes
11:40 - 12:00	LUNCH (provided at hotel)		Award winners announced

Fisheries Poster Session		
Presenter	Title	
Wednesday Feb 6, 2013	P - 1	Fish consumption and advisory awareness among older Wisconsin fishermen
Noon	P - 2	Status, distribution, and threats of Lake Superior Brook trout
until Thursday	P - 3	Concentrations of Mercury and fatty acids in Wisconsin sport fish: Implications for consumption advisories
Feb. 7, 10:20 am.	P - 4	Status and trends of Wisconsin Muskellunge tournaments
	P - 5	Hatch timing and growth of age-0 Largemouth bass in Wisconsin
	P - 6	Application of side-scan sonar technology for benthic habitat analysis in small streams
	P - 7	Replicating otolith ages for Largemouth bass in northern lakes: A comparison of scales and spines
	P - 8	Assessment of larval Lake Sturgeon production and drift periodicity on the Menominee River, Wisconsin
	P - 9	Population demographics and dynamics of common Carp in Lake Koshkonong, Wisconsin
	P - 10	Size-selective exploitation of Bluegills in Lake Archibald, Wisconsin
	P - 11	Use of side-scan sonar to assess substrate composition in the littoral zone of Wisconsin lakes
	P - 12	Evaluating future need of the Gull Island Shoal Lake trout refuge in Lake Superior
	P - 13	Modelling the lake-wide sustainability of lake trout stocks in Lake Superior
